

American Nurses Foundation and ANA Enterprise

The American Nurses Foundation (the Foundation) is a 501(c)(3) charitable organization that is part of the ANA Enterprise, a family of organizations that also includes the American Nurses Association and the American Nurses Credentialing Center. The three organizations work together as a cohesive system to achieve the Enterprise vision of creating a healthy world through the power of nursing.

As the charitable organization, the Foundation is powered by the generosity of our donors and volunteers. Visit www.givetonursing.org to learn more about donors' impact on nurses and the nursing profession.

The donor list reflects all donations and pledges from January 1 through December 31, 2020. If there is an error in the listing, please contact us at **301-628-5227** or givetonursing@ana.org so that we may correct our records.

Thank you for your support!

What an extraordinary year for nurses and the Foundation.

For the nation's nurses, 2020 was both the "Year of the Nurse" and a year of action. They developed innovative solutions to deploy lifesaving treatments to COVID-19 patients, participated in clinical trials to advance COVID-19 vaccine development, advocated for their patients and social justice issues, and confronted long-standing health inequities exacerbated by the pandemic. Working with and for nurses, the American Nurses Foundation was there to support them. Here are a few of the programs made possible by the Foundation:

- The Foundation's Pulse on the Nation's Nurses survey raised up the voices of over 77,000 nurses nationwide on critical topics relating to the pandemic and nurses' response to it.
- The suite of mental wellness programs from the Foundation's Well-Being Initiative support nurses' mental health and well-being, increasing their resiliency and capacity to continue fighting this pandemic. Over 49,500 nurses participated in our program offerings in 2020.
- ANA's COVID-19 webinar series and short education videos, which were viewed over 175,000 times in 2020, helped keep nurses up-to-date with the latest data-informed practices, equipping them to provide effective care during this crisis.
- In partnership with Nurses House, the Foundation funded grants totaling \$2.35 million to over 2,000 nurses experiencing financial hardship due to the pandemic. We combined this support with pro-bono financial planning for nurse recipients of this aid.
- The Foundation supported ANA's work advocating on nurses' behalf to Congress, and our survey data informed COVID response planning across federal agencies (CDC, FDA, FEMA, US GAO). Grant funding also supported a virtual summit of nurses across care settings and functional levels who created an advocacy blueprint for post-COVID nursing issues.

Your gift will impact the future of nursing.

Many donors who have supported the American Nurses Foundation have said, "I wish I could do more." A legacy gift does just that. It allows you the flexibility to make a gift that suits your needs and ensures that the American Nurses Foundation can continue to make a difference for nurses and the nursing profession.

A charitable gift in your will—a charitable bequest—is an easy and flexible way to support American Nurses Foundation. You can give a dollar amount, specific items, or designate a percentage of your estate. If you already have a will, you can add American Nurses Foundation to it with a simple amendment.

If you have already named the American Nurses Foundation in your will or other aspect of your estate plan, thank you and please let us know.

To learn more about the benefits of making a charitable bequest, visit our website at giftplanning.nursingworld.org or call Karen Schofield-Leca at 301-628-5095.
